About MESA Energy

MESA Energy is the dedicated oil & gas services division of Mesa Global Partners, delivering strategic expertise and field-level execution to infrastructure-intensive energy projects across the Americas (Texas & Guyana), the Middle East, Africa (Nigeria & Angola), and Asia (Kazakhstan).

Our Vision

To build a world-class African energy company that delivers reliable oil and gas solutions with global standards, innovation, and sustainability at its core.

Our Mission

To enable safe, scalable energy operations through expert sourcing, logistics, and field support—on time and to spec.

Our Mission

At our core, we see energy not only as a commodity but as a catalyst for sustainable development—today and for generations to come.

Our Values Built on What Matters Most

We operate with a shared commitment to:

Integrity:

Transparent, compliant, and principle-led execution

Performance

Results-driven support with global scale

Sustainability:

Flare reduction and responsible resource use

Community:

Local hiring, regional training, and long-term investment

Our People Led by Experience. Driven by Integrity.

MESA Energy is staffed by a multidisciplinary team of engineers, project managers, compliance experts, and field operations specialists. Many of our team members have decades of experience in infrastructure-intensive environments—from modular LNG buildouts to multi-region pipeline projects.

Our Services

- Strategic Sourcing & Contractor Due Diligence.
- Pipeline Construction Services.
- Rig Support Services.
- Gas Development & Monetization.
- Technology & IT Enablement.
- HSE & Well Site Preparation; Safety, and Environment (HSE) compliance across all services.
